The Harsh Reality

Data Speaks for Itself

In 2024

40%

of Brokers struggled to retain their clients

75%

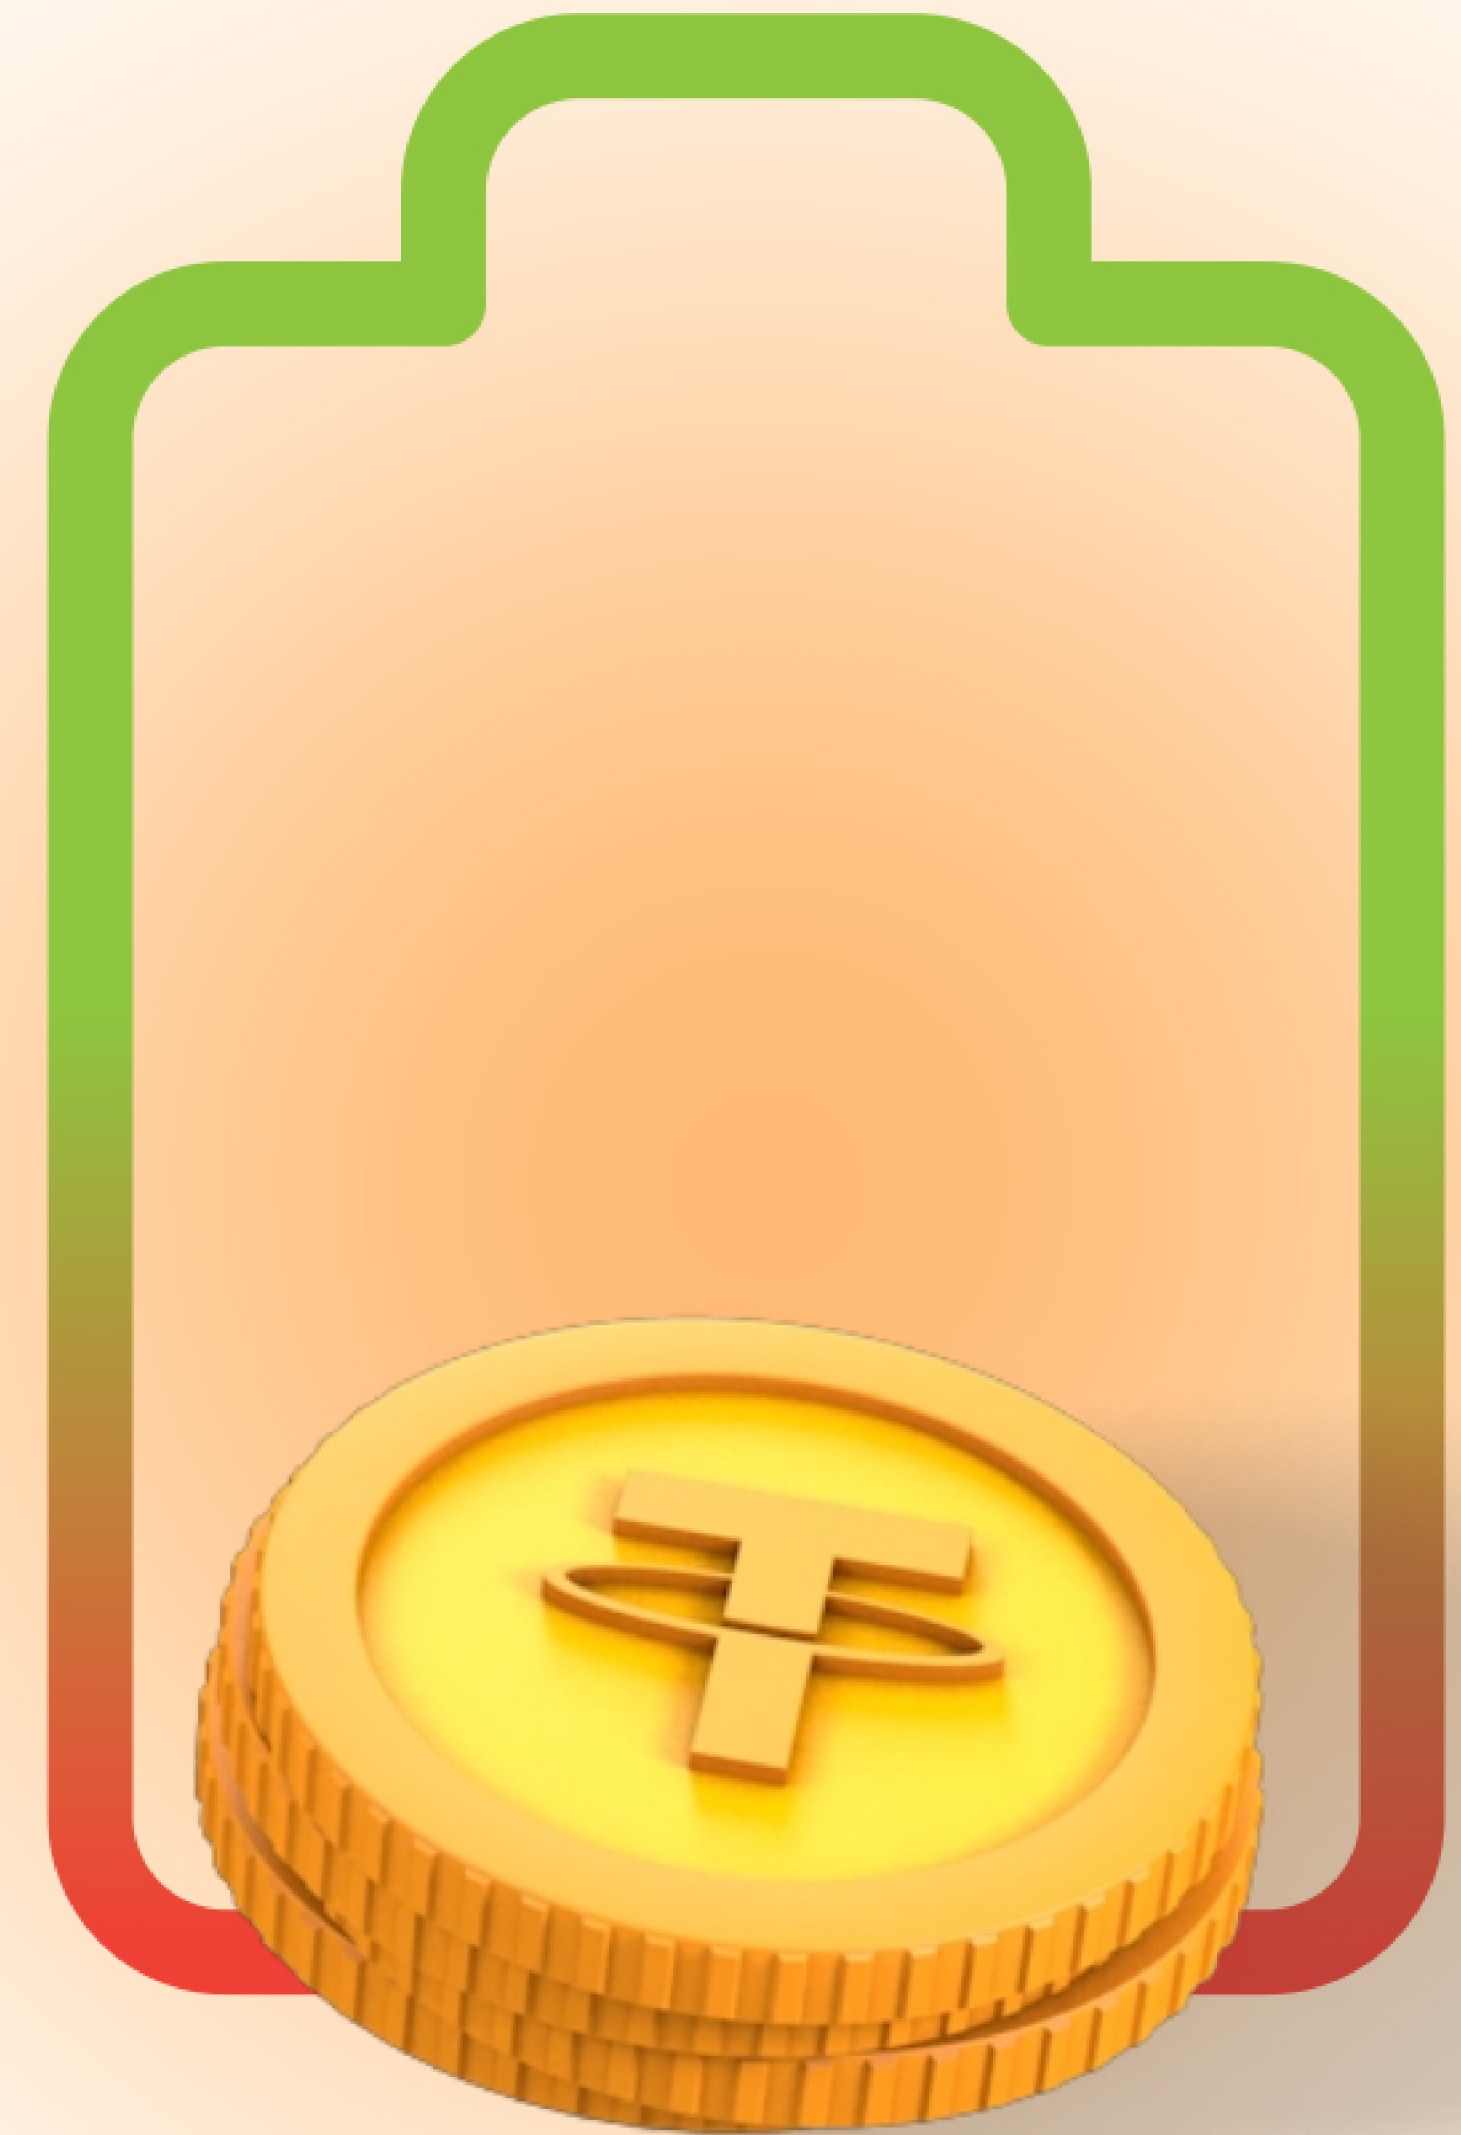

of Brokers missed \$50M in trading volume

2 in 5

lost their HNW clients

Why?

The lack of a *reliable* crypto payment solution

The Problem

Key Merchant Pain Points

Forex brokers lose revenue, trust & clients in a competitive industry

High Fees

Excessive charges from Traditional System drain profits

Complex Onboarding

Time-consuming and risky processes stall growth

Inefficient Operations

38% of back-office time is wasted on transaction issues

Fragmented Wallets

Current PSPs assign wallet addresses per transaction

Weak Support

Unreliable assistance during critical moments

The Solution

CoiniGo tailored for **Forex** Brokers

Dedicated Wallet Architecture

One wallet address per user instead of per transaction

● **Scalability:** Efficiently manage large user volumes

● **Optimized System Load:** Reduces strain on gateway infrastructure

● **Account-Based Ready:** Specifically designed for industries like Forex

Optional KYT Compliance

Zero regulatory burden on your business

Global Reach

Operates in low- and high-risk regions

Supports Micro Transactions

Accepts small value payments

Enhancing Every Step of the Process

Customer-Centric Support

- **Dedicated Technical Support** Manager from onboarding to integration
- **Personalized assistance** from tech and ops experts

Seamless Pay-In & Pay-Out

- **Dedicated wallet addresses** with real-time confirmations for deposits
- **Seamless Withdrawals** backed by multi-chain support

Comprehensive Support

- **24/7** customer service
- **Dedicated account** and compliance officers

Fast API Integration

- **Quick onboarding** with no technical expertise needed
- **Sandbox testing** for secure pre-deployment integration

Dynamic Merchant Dashboard

- **Centralized transaction** management
- **Real-time updates** and callback tracking
